

PRESS RELEASE

Exprivia won a tender for Euro 11 million to supply an integrated system for managing data and images in radiology and cardiology (RIS-PACS-CIS) for the Hospitals of Asti, Nizza Monferrato and eight House of Health in the area.

10 December 2009. Exprivia SpA - a company listed on the STAR segment of Borsa Italiana Stock Exchange [XPR.MI] - won a tender to provide Hospital of Asti and Nizza Monferrato and in eight houses of Health of the area with an integrated RIS-PACS-CIS (systems for managing data and images in radiology and cardiology) based on virtualized and redundant architecture.

The RIS-PACS-CIS, Exprivia proprietary solution, will integrate all current diagnostic applications and extend the storage and workflow to the component of cardiac imaging and electrocardiographic paths in PACS archive.

Exprivia won the tender for an amount of over Euro 11 million of which approximately 6 million for the initial provision (which will be carried out within the first quarter 2010) and the remaining Euro 5 million in the next 8 years for services and operational support in the plant.

"With this contract Exprivia confirms its competitive ability and level of innovativeness of their solutions, and marks another important step towards territorial expansion in the healthcare sector - says Stefano Ferrara Director of the Business Unit health and local administration - Our established presence in the Italian market for over 10 years in the RIS-PACS solutions and clinical systems, with over 200 international and domestic installations, testify our leadership as supplier of large healthcare projects."
